

Paige Godfrey

San Francisco, CA | 408-763-6067 | paagodfrey@gmail.com | paigegodfrey.com | github.com/paigegodfrey

Skills & Interests

Technologies JavaScript, React, Redux, Node, Express, Python, Flask, PostgreSQL, Git, HTML, CSS
Interests Martial Arts, Weight Lifting, Yoga, Cooking, Diet & Nutrition
Additional Second-Degree Black Belt in Tae Kwon Do

Projects

Jobly (React, Express, PostgreSQL) – <https://jobly-react-app.herokuapp.com>

- Full-stack mock job-search application in which users can login, view companies/jobs, and apply to positions.
- Managed global state with React Context to simplify cross component communication and improve readability.
- Built RESTful API with token-based authentication. Wrote integration tests with Jest and SuperTest.

Warbler (Flask, Jinja, PostgreSQL) – <https://warbler-flask-app.herokuapp.com>

- Twitter clone built entirely as a backend application. Users can login, follow users, and create/like messages.
 - Authenticated users with Bcrypt and stored current user data in Flask session to persist state across requests.
 - Implemented SQLAlchemy ORM for increased scalability. Tested models and views with Python unittest.
-

Experience

Software Engineer, Open Source

Fall 2020 – Present

Numbers API | San Francisco, CA

- Removed deprecated Ruby compass dependency by implementing node-sass for static asset compilation.
- Centralized and simplified app build tools by refactoring npm scripts to incorporate Makefile logic.
- Removed vendor assets from version control by relegating frontend libraries to package dependencies.

Software Engineer Intern

Spring 2020

JumpOffCampus, Inc. | San Francisco, CA

- Built and tested MVC components for “points of interest” feature, as part of an upgrade from Rails 2 to Rails 5.
- Improved apartment listings UI by separating list and map views and integrating Google Maps API features.
- Refactored legacy React components from classes to hooks to simplify patterns and improve readability.
- Received a job offer upon completion of the internship.

Internal Control Analyst

2018 – 2019

Chevron Corporation | San Ramon, CA

- Coordinated global compliance training. Increased annual attendance by 70%, managed content creation, delivered trainings to 200+ people, and built dynamic Excel models to streamline scheduling and reporting.
- Developed and operationalized enterprise-wide Robotic Process Automation (RPA) risk assessment program.
- Supervised remote team of 10 RPA Analysts, led risk reviews, and published executive management reports.

Financial Analyst

2015 – 2018

Chevron Corporation | El Segundo, CA

- Reduced employee expense by \$150,000 by streamlining local finance team’s monthly reporting processes.
- Directed one of seven labor initiatives to standardize finance activities across North American Refinery sites.
- Stewarded \$80M Refinery Maintenance budget by developing and presenting monthly variance analyses.

Finance Development Program

2013 – 2015

Chevron Corporation | Vancouver, BC & San Ramon, CA

- Reduced labor costs by \$100,000 by automating retail marketing processes ahead of migration planning.
 - Streamlined Chevron Canada’s annual budget model to enhance data integrity and ease of use.
-

Education

Rithm School, San Francisco

April 2020

Full-Time Software Engineering Bootcamp

California Polytechnic State University, San Luis Obispo

June 2013

B.S. Business Administration, summa cum laude (3.9 GPA)
